

ASSOCIAZIONE PER LA PACE

29th of July, 1989

Dear friends,

here enclosed you can find the press release in which, during the END Convention in Spain, it was announced the Nonviolent March for Peace in the Middle East.

The preparatory group is working to organize it concretely, and very soon all the practical elements of it will be disponibile.

The March has been decided after deep debates, and after listening prominent persons, also israelis and palestinians, on the opportunity to do it. There was a strong will to do something useful and positive, in front of the scenario of the Middle East, and of the conflict between Palestine and Israel. We decided to launch the March as a signal of peace, to support and encourage all the persons who, in Israel and Palestine, are working for a just peace. It has not to be considered as an interference: it's our little help to dialogue, negotiations, and again, peace.

At the moment, what we hope is that you express your orientation on the initiative, and your disponibilidad to participate. We hope also you'll inform the activists of your organization.

Please contact us soon, enlist your organization -as many peace movements have already done- and, if you like, yourself. We shall send further informations in September.

Best wishes, in peace

tom behtold
